

# About Us

[WWW.CINCINNATI-CRANE.COM](http://WWW.CINCINNATI-CRANE.COM)

We are proud provide **turnkey solutions** for all your material handling needs.

Let Cincinnati Crane & Hoist help you design an **efficient, cost effective** crane system that suits your application.

# MEET OUR CEO

TONY STROBL

## Leadership

Tony Strobl's military experience, degree in construction management, and natural leadership abilities provided the foundation for success in a highly specialized field. By continually rising to meet the challenges of his industry, Tony has now become the go-to guy to provide custom designed solutions for overhead crane systems for the military and for many high profile industrial customers throughout the United States.

Cincinnati Crane actively seeks to hire military veterans and veteran family members. Which added to our dedicated team of crane industry professionals help make CCH a high quality manufacturer of overhead crane systems and a full service provider for all of your crane care needs.

# WHERE WE STAND

**Cincinnati Crane & Hoist is Built Upon  
Safety + Service + Quality + Innovation  
+ Teamwork + Value**

## Our Mission

To provide our customers with the highest quality equipment that works to meet their needs and enhance their business capabilities.

## Our Values

Act ethically, honor our commitments, welcome change, and accept challenges. We strive to be proactive, cost conscious, build long term relationships with our customers, and give back to our community.

## Our Vision

To become a leading provider of overhead crane systems and industrial lifting equipment by operating with integrity, continuously seeking to be innovative, being safety conscious and by doing what we say we are going to do.

Industry  
4.0

The Cincinnati Crane

# Smart CRANE REMOTE

By allowing operators to focus on the load rather than the control buttons, our revolutionary controller increases the efficiency and safety of your crane operation.

Powered by Schneider Electric

# CCH Smart REMOTE FEATURES

The remote connects to a Bluetooth receiver, is easily customizable, and has a sleek and intuitive handheld design integrated with the latest technology.

## Ergonomic Design

---

- Intuitive one hand operation
- Focus on load and operate with confidence
- Reduce operator fatigue

## Safety Features

---

- Accessible emergency stop
- Built in limit switch management
- Crane collision avoidance
- Embedded accelerator detects unexpected movements

## User Accountability

---

- Unique log-in code for individual users
- User access control and user log history

# SERVICES
